

Katherine Morgan has worked as an Administrative Assistant at FKP for seven years. She has been a secretary or administrative assistant for 17 years. Her past employers include an electrical/mechanical engineering firm in Hawaii and a civil engineering firm in Colorado.

Katherine states, "Last year I attended a dynamic seminar entitled "Become a World Class Administrative Assistant." I presented what I learned at an SDA program in February 2005 and I hope to do it again (& better) later this year. I became aware of the SDA Houston chapter after becoming an FKP employee, but only just joined as a member in 2005. I quickly became actively involved by serving on the SDA National Awards Committee and the SDA Houston Construction Committee. I find the programs and networking opportunities to be extremely valuable. I attended the national SDA convention in Los Angeles in 2006, where I met more wonderful SDA members and learned even more about how to be a better administrator." Katherine served as the SDA Houston Board Secretary during 2006.

Katherine is married and has three children. Her hobbies are cross-stitching and scrapbooking; her passions include reading, spelling and grammar.
