**Professional Emphasis Groups (PEG's):** A Professional Emphasis Group (PEG) is a mini-networking group, or internal sub-group, within SDA. Each PEG has as its focus a different area of expertise and will align with SDA's certification program categories. In addition to networking, PEGs will provide an opportunity to give members advanced information in their particular area(s) of interest. By selecting a PEG on the dues transmittal, a central database will identify a subset of members who, by choice, have identified themselves in a given area of specialty or interest. These members could then be used as consultants or speakers within the organizational structure of SDA and other design related affiliate organizations. **Please select ONE PEG that interests you:**

Project Management     Finance     Human Resources     Marketing     Office Administration
